

Home Learning Adventure Pyramid- Growing Up

Analyse

- What is the difference between a bird and a reptile?
- Why do some animals lay eggs in nests?
- What type of animal gives birth to live young?

Evaluate

- What is your favourite type of animal and why?

Create

- Create your own timeline of your life so far from birth to 4/5. What does your mummy/daddy's timeline look like?

Apply

- Go and visit a farm...can you find out any information about the baby animals?
- Can you create instructions for a new animal owner on how to care for their new pet? (a pet of your choice)
 - Do you have any baby brothers/sisters? If so, how does your mummy and/or daddy care for them?

Understand

How did your mummy care for you while you were in her tummy?
How do we care for our pets?
Research an animal of your choice...how does that animal's mummy care for that animal while it is growing up?

Remember

- Find out about the types of animals that come from eggs
- Visit the library and research baby animals...what is a baby horse called?
- Do you have any pets? What did they look like when they were young, what do they look like now they are older?

Top tips!

You don't have to complete this pyramid all in one go; go with the interests of your child and dip in and out of this pyramid as you wish. Some parents have chosen to create a project or presentation over several weeks of home learning based on this context which is great but please don't feel like this is what we expect. It is there to provide you with **ideas** based on our topic...feel free to make up your own activities or games! Please try to make a note or present work in the home learning adventure books which are reviewed every Friday.
